

## Talend Recognized for Big Data Leadership by Top Technology Journals

June 20, 2017

*SD Times and Database Trends and Applications Honor Cloud and Big Data Solutions Provider*

REDWOOD CITY, Calif.--(BUSINESS WIRE)--Jun. 20, 2017-- [Talend \(NASDAQ: TLND\)](#), a global leader in [cloud](#) and [big data](#) integration solutions, today announced it has been appointed among the top 10 list of winners for the [2017 SD Times 100 "Best in Show"](#) in Software Development for Big Data and Analytics. The company was also named to the [DBTA 100 2017](#) "Companies that Matter Most in Data" list, a special list that salutes today's top companies in data management and analysis. These two acknowledgements follow on the heels of Talend's recent appointment to [CRN's 2017 Big Data 100 list](#), and add to a growing list of accolades and industry recognitions including being named a leader in the 2016 Gartner Magic Quadrant for Data Integration Tools and the Forrester Wave: Big Data Fabric Q4 2016.

"At Talend, we're keenly focused on delivering solutions that keep pace with the rapidly evolving cloud and big data markets to help companies digitally transform their businesses and gain a true competitive advantage," said Ashley Stirrup, CMO, Talend. "We're honored to be recognized by these two industry publications and feel it underscores the need for a new approach to data integration that is agile enough to embrace cutting-edge technologies and help future-proof customers' investments."

The [SD Times 100](#) honors companies, consortia and projects that have put their stamps on the industry through innovation, leadership and approach. Every company that has growing reams of data is looking for ways to effectively store, retrieve and interpret it all. [Talend](#) is the only data integration vendor recognized among a short list that includes its big data ecosystem partners such as Cloudera, Hortonworks and MapR, as a company making growing data volumes more manageable.

The fifth annual "[DBTA 100: The Companies That Matter Most in Data](#)" is a special list that salutes today's top companies in data management and analysis. From long-standing industry veterans to new big data vendors disrupting the status quo, the list evaluates companies based on their presence, execution, vision, and innovation in delivering products and services to the marketplace. This list seeks to highlight those companies that have been successful in establishing themselves as unique resources for data professionals and stakeholders. All 100 companies are highlighted in the June edition of Database Trends and Applications magazine and on [www.dbta.com](#).

Talend's data integration platform, [Talend Data Fabric](#), combines all Talend products into a common set of easy-to-use tools for a range of integration jobs: real-time or batch, big data or master data management, on-premises or in the cloud. Optimized for cloud and multi-cloud data environments, the latest release of [Talend Data Fabric](#), Talend Summer '17, delivers comprehensive support for all major cloud platforms including AWS, Google, and Microsoft Azure.
