

TALEND ANNOUNCES AVAILABILITY OF TALEND CLOUD IN AWS MARKETPLACE

December 3, 2019

Further collaboration and provides a single suite for powerful data integration in the cloud

REDWOOD CITY, Calif., Dec. 03, 2019 (GLOBE NEWSWIRE) -- [Talend \(NASDAQ: TLND\)](#), a global leader in [cloud](#) data integration and data integrity, today announced immediate availability of Talend Cloud in Amazon Web Services (AWS) Marketplace.

Talend Cloud is an easy-to-use data integration platform optimized for AWS with simple connectivity and 900+ components and connectors with multi-cloud and hybrid support for maximum flexibility. It is designed to provide a single platform with data quality and governance capabilities to enforce rules and create consistent information using a suite of collaborative applications built for everyone from ETL developers to business analysts.

As more data is ingested and analyzed in the cloud, Talend Cloud helps organizations segment customers, operationalize data science algorithms, and integrate historical and streaming data to respond in real-time to business opportunities and threats.

Talend Cloud supports capabilities such as:

- Broad connectivity for on-premise, cloud, hybrid, and multi-cloud environments and support for over 70+ AWS services including Amazon Redshift, Amazon Simple Storage Service (Amazon S3), Amazon EMR, and Amazon Relational Database Service (Amazon RDS)
- Built-in pervasive data quality to ensure trusted data and regulatory compliance
- Governed self-service apps, such as Pipeline Designer, Data Preparation, and Data Stewardship, to democratize data and facilitate transition to cloud for data-driven organizations
- Predictable pricing (user-based) with pay-as-you-go options

"We are happy to add to our existing AWS Marketplace offerings with Stitch Data Loader earlier this year and now the availability of Talend Cloud. Customers often want to purchase through AWS Marketplace, and this is an excellent opportunity to expand our footprint in the market," said Michael Pickett, SVP of business and corporate development at Talend. "We look forward to continuing to expand our relationship with AWS and providing a truly seamless experience for our customers using Talend Cloud in an AWS environment."

Talend Cloud is available now for purchase in [AWS Marketplace](#). Learn more about how Talend quickly and easily run integration tasks securely across cloud and on-premise environments with only a few clicks from an AWS account.
