Talend Cloud Now Available in Microsoft Azure Marketplace

March 10, 2020

Microsoft Azure customers worldwide now have access to quick deployments of cloud-to-cloud, cloud-to-on premises environments using Azure

REDWOOD CITY, Calif., March 10, 2020 /PRNewswire/ -- Talend (NASDAQ: TLND), a global leader in cloud data integration and data integrity, announced today the availability of Talend Cloud in Microsoft Azure Marketplace, an online store providing applications and services for use on Azure. With the embedded data quality and native integration performance of Talend Cloud, companies can run integration tasks securely across cloud and on-premise environments with only a few clicks from an Azure account.

Trusted data with Talend Cloud

Talend Cloud is an easy-to-use data integration platform optimized for Azure that supports multi-cloud and hybrid environments for maximum flexibility. For organizations, this creates a faster implementation cycle with increased performance and efficiency for data integration.

Talend Cloud on Azure supports capabilities such as:

- Broad connectivity for on-prem, cloud, hybrid, and multi-cloud environments and support for Azure Synapse Analytics, Azure Databricks, Azure Data Lake Store, Azure HDInsight, and many more to take advantage of optimal performance and scale
- Over 900 transactional, operational, and analytic data connectors and components, which can be used to quickly connect, load and process data from virtually any source into Microsoft Azure
- Built-in pervasive data quality to ensure trusted data and regulatory compliance
- Support for CI/CD and integration with Azure DevOps provides improved developer productivity and business agility

"Whether a company is looking to build a new data lake or modernize a data warehouse, Talend Cloud for Azure provides the flexibility to make it possible to integrate all data across their enterprise," said Mike Pickett, SVP of Business Development and Ecosystem at Talend. "We look forward to continuing to expand our strong relationship with Azure and providing a truly seamless experience for our customers using Talend Cloud in an Azure environment."

Sajan Parihar, Senior Director, Microsoft Azure Platform at Microsoft Corp., added, "Microsoft Azure Marketplace lets customers worldwide discover, try, and deploy software solutions that are certified and optimized to run on Azure. Azure Marketplace helps solutions like Talend Cloud reach more customers and markets."

Talend Cloud is now available to purchase on Azure Marketplace. Learn more about how Talend quickly and easily runs integration tasks securely across cloud and on-premise environments with only a few clicks from an Azure account.

About Talend

Talend (NASDAQ: TLND), a leader in cloud data integration and data integrity, enables companies to transform by delivering trusted data at the speed of business.

Talend Data Fabric offers a single suite of apps that shortens the time to trusted data by solving some of the most complex aspects of the data value chain. Users can collect data across systems, govern it to ensure proper use, transform it to new formats and improve quality, and share it with internal and external stakeholders.

Over 4,250 organizations across the globe choose Talend to rely on trusted data to make business decisions with confidence. Talend has been recognized as a leader in its field by leading analyst firms and industry publications including Forbes, InfoWorld and SD Times.
